Google Maps Search Record: Where "Star Bail Bonds" Ranks in 22 Cities Near Pomona

Prepared by Chad Conley, Chad Conley Bail Bonds, 1235 W Mission Blvd, Pomona | Searches run November 22, 2026: 10 cities at 6:16 to 6:17 PM PST and 12 more at 6:52 to 6:53 PM PST

Why this record exists

This record shows what a family sees when they search Google Maps for 'bail bonds' in 22 cities around Pomona, from Pomona and Ontario out to West Covina, El Monte, Fontana and Eastvale. It's why the reports on these listings were filed. The point isn't to remove any competitor. It's that listings at addresses where no bail office exists take spots in the top 10 that should go to real, licensed local offices.

How the searches were run

- Google Maps, search term "bail bonds," map centered on each city at the same zoom level (13).
- Signed out, in English, with no saved history, so the results aren't personalized.
- The first 10 results were recorded as Google listed them, and screenshots were taken of the full list (three per city, covering results 1 to 10). The search link for each city is included so anyone can repeat it.
- The first 10 cities were searched twice, a minute apart, with identical results. The 12 outer cities were searched once, about 35 minutes later, with the same settings.

All 22 searches			**40 of 220**

Star listings held three or more of the top 10 spots in 7 of the 22 cities, and at least one spot in 20 of them. Across all 22 searches, 40 of the 220 top spots went to Star listings. Every Star listing seen in these searches is one of the 20 already reported to Google. ("All Star Bail Bonds of El Monte" is a different business and is not counted.) Separate reports document that these addresses are a grocery store, a senior center, apartments, a house, vacant buildings, virtual offices and buildings with no Star office, and that no California bail license is on file under the name "Star Bail."

Why it matters

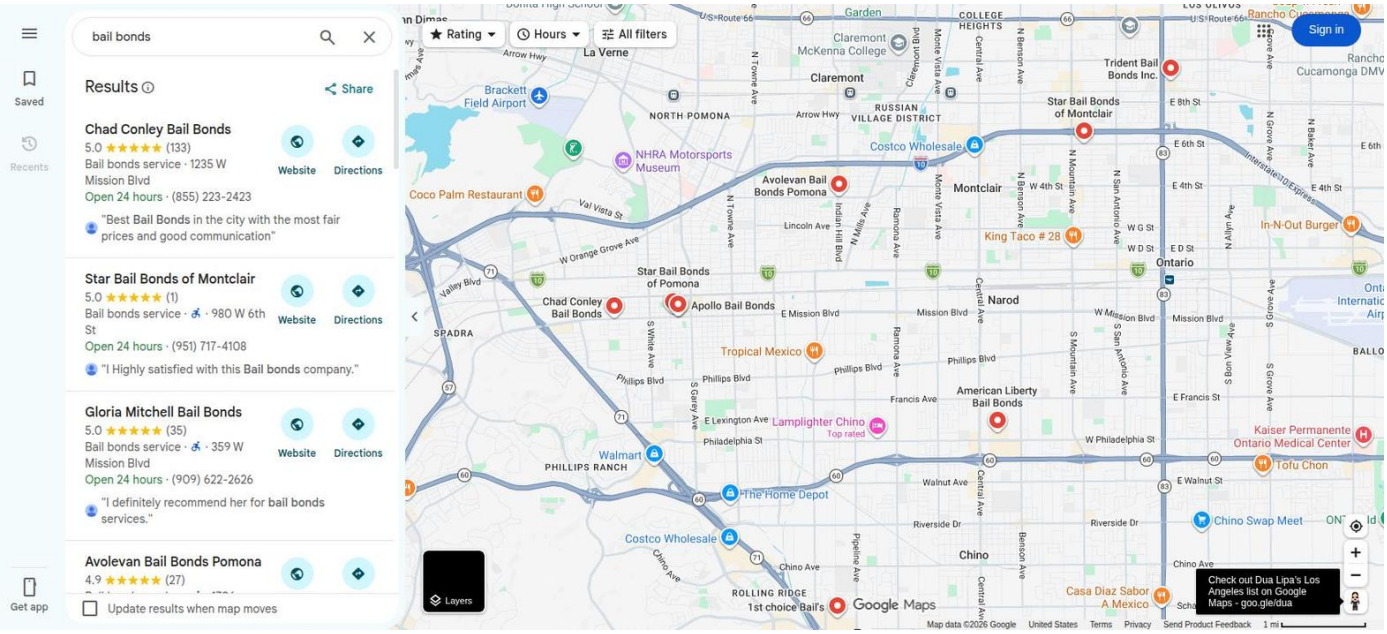

- Google doesn't allow bail bond ads, so the map is the main way a family finds a bail agent. Each top-10 spot is valuable.
- A family calling a "Star" listing reaches a number that isn't at the address shown. One reviewer says the call led to "calls from multiple LA bail bond companies."
- Real local offices pay rent, keep staff on site and hold licenses. The listings that don't follow those rules still take a share of the top spots.
